## **Safe & Well – May 2018**

### **To: All Branches**

Dear Colleagues,

Please see attached the May edition of Safe and Well newsletter with contributions from our USRs and field teams. This edition has a focus on summer - reminder of dog danger in the summer months, able to stay stable, things that almost went bump and some guest appearances via Wired to help with the voltage detector rollout.

Yours sincerely

**Dave Joyce**  
**National Health, Safety & Environment Officer**
